

NAME \_\_\_\_\_

# Picturing Measurements

In this part of **Measure Up** you will use your new measuring skills. You are going to make pictures by measuring and drawing lines. You must follow directions **exactly**. If you don't, you will not get the right picture to see how well you can follow directions. The first three steps have been done for you. Each time you finish a direction, put an **X** in front of it.

- 1. Place your ruler on Line AB. Measure  $1\frac{1}{2}$ " across from Point A. Make a dot to mark this point. Call it point E.
- 2. Place your ruler on Line CD. Measure  $2\frac{1}{2}$ " across from point C. Make a dot to mark this point. Call it point F.
- 3. Draw a line to connect Point E with Point F.
- 4. Place your ruler on Line CD. Measure  $\frac{1}{2}$ " across from Point C. Make a dot to mark this point. Call it Point G.
- 5. Draw a line to connect Point E with Point G.
- 6. Place your ruler on Line AC. Measure down  $1\frac{1}{4}$ " from Point A. Make a dot to mark this point. Call it Point H.
- 7. Place your ruler on Line BD. Measure down  $1\frac{1}{4}$ " from Point B. Make a dot to mark this point. Call it point I.
- 8. Draw a line to connect Point H with Point I.
- 9. Draw a line to connect Point H with Point F.
- 10. Draw a line to connect Point G with Point I.

Your picture should turn out to be a star -- Like this

**Be sure you can follow these directions before you do more measurement picture.**
